

You are invited to

Today's Cybersecure Hospital

An expert-led cybersecurity session

Join other hospital leaders on **September 23 from 2pm to 4pm ET** as we explore the evolving cybersecurity threats that particularly affect small and medium-sized hospitals in Canada. The Forum will focus on new and critical issues, and how to be best prepared to avoid cyber-attacks and manage breaches.

Forum Topics and Speakers:

- **Welcome & introductions** - Lee-Anne Kennedy, Director of Practice Management, Saegis
- **Hospital cybersecurity trends** - Lindsay MacDonald, Cybersecurity Engagement Lead, Health and Provinces/Territories/Municipalities Sectors, Communication Security Establishment (CSE)
- **Breach impacts & costs; changes to insurance requirements** - Declan Friel, VP of Healthcare, HUB International
- **A Hospital Breach: what happened, and lessons learned** - Guest speaker in technology and security, from hospital leadership team
- **Considering the fundamentals across people, process, and technology** - Aron Feuer, Managing Director Cybersecurity, Valencia IIP
- **Panel Discussion and Q & A** - All speakers and participants
